Lesson 10A

1. REVIEW PREVIOUS DAY’S LIST
First, review the previous day’s words to further enhance “long-term” memorization. Next, quickly review the previous 2 or 3 days’ words.

2. TEACH COLORED SOUND AND/OR READING RULE
Teach the color-coded sound or reading rule used in today’s words (short or long vowel sound – r-controlled - common ending – etc). Tell students you want them (in unison) to say the sound of the colored letter(s) but only when your finger touches the paper below the colored sound. Do this with at least 3 or 4 of the words. Hesitate a few times before touching the paper to heighten student interest.

3. STUDENTS STOP AT THE VOWEL SOUND
Students say the sound up to the colored vowel sound as teacher covers the right side of the word with hand. For example, if the word was “loyal,” students would say “loy.” Do this for all list words. In some lists, the first vowel sound is not color-coded (for example, if teaching the sound “tion” in the word “action.” In this situation, you can still practice stopping at the vowel sound, but first discuss the sound with the class. For example, what is the first vowel sound? Long? Short? Diphthong? Other?

4. TEACHER STOPS AT VOWEL SOUND – STUDENTS ECHO
Now that students can read up to the vowel sound, they need practice in adding the final sounds to decode the entire word. This is done by having the teacher say the sound made up to the vowel sound and then having students say the entire word. For example, if the word was “loyal,” the teacher would say “loy” and the students would quickly look at the final “al” in the word and say “loyal.” Even if the first vowel sound is not color-coded (as in the word “action”) the teacher can still say the first vowel sound “ah” to assist with the echo technique. End the ECHO step with the entire class (in unison) saying the list words.

5. BOOBOO CATCHER GAME
Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Also, watch what happens when you say a word loudly and quickly and say it correctly at the same time.

6. STUDENTS READ LIST WORDS – STOPWATCH ACTIVITY
Tell the class that you are going to call on 5 students to say the list words. The first three students will be volunteers – the last two will be called on. (Telling the class that someone will be called on will encourage all students to pay closer attention). After calling on your first volunteer, write their name on the board. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY web site or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

7. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

8. DEFINITION CLUES
This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

9. COPY CAT EXERCISE
Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

10. VOCABULARY BUILDING WORKSHEET
Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

11. STUDENT READING WALL
Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video.

For example, what is the first vowel sound? Long? Short? Diphthong? Other?

4. TEACHER STOPS AT VOWEL SOUND – STUDENTS ECHO
Now that students can read up to the vowel sound, they need practice in adding the final sounds to decode the entire word. This is done by having the teacher say the sound made up to the vowel sound and then having students say the entire word. For example, if the word was “loyal,” the teacher would say “loy” and the students would quickly look at the final “al” in the word and say “loyal.” Even if the first vowel sound is not color-coded (as in the word “action”) the teacher can still say the first vowel sound “ah” to assist with the echo technique. End the ECHO step with the entire class (in unison) saying the list words.

5. BOOBOO CATCHER GAME
Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Also, watch what happens when you say a word loudly and quickly and say it correctly at the same time.

6. STUDENTS READ LIST WORDS – STOPWATCH ACTIVITY
Tell the class that you are going to call on 5 students to say the list words. The first three students will be volunteers – the last two will be called on. (Telling the class that someone will be called on will encourage all students to pay closer attention). After calling on your first volunteer, write their name on the board. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY web site or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

7. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

8. DEFINITION CLUES
This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

9. COPY CAT EXERCISE
Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

10. VOCABULARY BUILDING WORKSHEET
Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

11. STUDENT READING WALL
Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video

1. REVIEW PREVIOUS DAY’S LIST
   First, review the previous day’s words to further enhance “long-term” memorization. Next, quickly review the previous 2 or 3 days’ words.

2. TEACH COLORED SOUND AND/OR READING RULE
   Teach the color-coded sound or reading rule used in today’s words (short or long vowel sound – r-controlled - common ending – etc). Tell students you want them (in unison) to say the sound of the colored letter(s) but only when your finger touches the paper below the colored sound. Do this with at least 3 or 4 of the words. Hesitate a few times before touching the paper to heighten student interest.

3. STUDENTS STOP AT THE VOWEL SOUND
   Students say the sound up to the colored vowel sound as teacher covers the right side of the word with hand. For example, if the word was “loyal,” students would say “loy.” Do this for all list words. In some lists, the first vowel sound is not color-coded (for example, if teaching “familiar” students would say “fam.”) In this situation, you can still practice stopping at the vowel sound, but first discuss the sound with the class. For example, what is the first vowel sound? Long? Short? Diphthong? Other?

4. TEACHER STOPS AT VOWEL SOUND – STUDENTS ECHO

End the ECHO step with the entire class (in unison) saying the list words.

4. BOOBOO CATCHER GAME
Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Also, watch what happens when you say a word loudly and quickly and say it correctly at the same time.

12. STUDENTS READ LIST WORDS – STOPWATCH ACTIVITY
Tell the class that you are going to call on 5 students to say the list words. The first three students will be volunteers – the last two will be called on. (Telling the class that someone will be called on will encourage all students to pay closer attention). After calling on your first volunteer, write their name on the board. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY web site or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

13. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

14. DEFINITION CLUES
This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

15. COPY CAT EXERCISE
Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

16. VOCABULARY BUILDING WORKSHEET
Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

17. STUDENT READING WALL
Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video

1. REVIEW PREVIOUS DAY’S LIST
   First, review the previous day’s words to further enhance “long-term” memorization. Next, quickly review the previous 2 or 3 days’ words.

2. TEACH COLORED SOUND AND/OR READING RULE
   Teach the color-coded sound or reading rule used in today’s words (short or long vowel sound – r-controlled - common ending – etc). Tell students you want them (in unison) to say the sound of the colored letter(s) but only when your finger touches the paper below the colored sound. Do this with at least 3 or 4 of the words. Hesitate a few times before touching the paper to heighten student interest.

3. STUDENTS STOP AT THE VOWEL SOUND
   Students say the sound up to the colored vowel sound as teacher covers the right side of the word with hand. For example, if the word was “loyal,” students would say “loy.” Do this for all list words. In some lists, the first vowel sound is not color-coded (for example, if teaching the sound “tion” in the word “action.” In this situation, you can still practice stopping at the vowel sound, but first discuss the sound with the class. For example, what is the first vowel sound? Long? Short? Diphthong? Other?

4. TEACHER STOPS AT VOWEL SOUND – STUDENTS ECHO
   Now that students can read up to the vowel sound, they need practice in adding the final sounds to decode the entire word. This is done by having the teacher say the sound made up to the vowel sound and then having students say the entire word. For example, if the word was “loyal,” the teacher would say “loy” and the students would quickly look at the final “al” in the word and say “loyal.” Even if the first vowel sound is not color-coded (as in the word “action”) the teacher can still say the first vowel sound “ah” to assist with the echo technique. End the ECHO step with the entire class (in unison) saying the list words.

5. BOOBOO CATCHER GAME
   Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. For example, what is the first vowel sound? Long? Short? Diphthong? Other?

4. TEACHER STOPS AT VOWEL SOUND – STUDENTS ECHO
Now that students can read up to the vowel sound, they need practice in adding the final sounds to decode the entire word. This is done by having the teacher say the sound made up to the vowel sound and then having students say the entire word. For example, if the word was “loyal,” the teacher would say “lo” and the students would say “loy.” Even if the first vowel sound is not color-coded (as in the word “action”) the teacher can still say the first vowel sound “ah” to assist with the echo technique. End the ECHO step with the entire class (in unison) saying the list words.

5. BOOBOO CATCHER GAME
Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Also, watch what happens when you say a word loudly and quickly and say it correctly at the same time.

6. STUDENTS READ LIST WORDS – STOPWATCH ACTIVITY
Tell the class that you are going to call on 5 students to say the list words. The first three students will be volunteers – the last two will be called on. (Telling the class that someone will be called on will encourage all students to pay closer attention). After calling on your first volunteer, write their name on the board. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY web site or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

7. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

8. DEFINITION CLUES
This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

9. COPY CAT EXERCISE
Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

10. VOCABULARY BUILDING WORKSHEET
Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

11. STUDENT READING WALL
Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video

1. REVIEW PREVIOUS DAY’S LIST
   First, review the previous day’s words to further enhance “long-term” memorization. Next, quickly review the previous 2 or 3 days’ words.

This is done by having the teacher say the sound made up to the vowel sound and then having students say the entire word. For example, if the word was “loyal,” the teacher would say “loy” and the students would quickly look at the final “al” in the word and say “loyal.” Even if the first vowel sound is not color-coded (as in the word “action”) the teacher can still say the first vowel sound “ah” to assist with the echo technique. End the ECHO step with the entire class (in unison) saying the list words.

5. BOOBOO CATCHER GAME
   Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Also, watch what happens when you say a word loudly and quickly and say it correctly at the same time.

6. STUDENTS READ LIST WORDS – STOPWATCH ACTIVITY
   Tell the class that you are going to call on 5 students to say the list words. The first three students will be volunteers — the last two will be called on. (Telling the class that someone will be called on will encourage all students to pay closer attention). After calling on your first volunteer, write their name on the board. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY web site or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

7. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
   Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

8. DEFINITION CLUES
   This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

9. COPY CAT EXERCISE
   Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

10. VOCABULARY BUILDING WORKSHEET
    Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

11. STUDENT READING WALL
    Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video

1. REVIEW PREVIOUS DAY’S LIST
   First, review the previous day’s words to further enhance “long-term” memorization. Next, quickly review the previous 2 or 3 days’ words.

3. STUDENTS STOP AT THE VOWEL SOUND
   Students say the sound up to the colored vowel sound as teacher covers the right side of the word with hand. For example, if the word was “loyal,” students would say “loy.” Do this for all list words. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Also, watch what happens when you say a word loudly and quickly and say it correctly at the same time.

6. STUDENTS READ LIST WORDS – STOPWATCH ACTIVITY
Tell the class that you are going to call on 5 students to say the list words. The first three students will be volunteers – the last two will be called on. (Telling the class that someone will be called on will encourage all students to pay closer attention). After calling on your first volunteer, write their name on the board. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY web site or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

7. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

8. DEFINITION CLUES
This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

9. COPY CAT EXERCISE
Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

10. VOCABULARY BUILDING WORKSHEET
Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

11. STUDENT READING WALL
Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video

Of or relating to life and living processes
A feudal society was a political system common during the medieval period in Europe. In a feudal society, the land was owned by a noble who had the title of lord. The lord would then grant permission to someone, called a “vassal,” who could use the land for living or growing crops. The land was actually called a fief. In exchange for using the fief, the vassal would provide military service to the lord.

Lesson 16C

1. REVIEW PREVIOUS DAY’S LIST
   First, review the previous day’s words to further enhance “long-term” memorization. Next, quickly review the previous 2 or 3 days’ words.

2. TEACH COLORED SOUND AND/OR READING RULE
   Teach the color-coded sound or reading rule used in today’s words (short or long vowel sound – r-controlled - common ending – etc). Tell students you want them (in unison) to say the sound of the colored letter(s) but only when your finger touches the paper below the colored sound. Do this with at least 3 or 4 of the words. Hesitate a few times before touching the paper to heighten student interest.

3. STUDENTS STOP AT THE VOWEL SOUND
   Students say the sound up to the colored vowel sound as teacher covers the right side of the word with hand. For example, if the word was “loyal,” students would say “loy.” Do this for all list words. In some lists, the first vowel sound is not color-coded (for example, if teaching the sound “tion” in the word “action.” In this situation, you can still practice stopping at the vowel sound, but first discuss the sound with the class. For example, what is the first vowel sound? Long? Short? Diphthong? Other?

4. TEACHER STOPS AT VOWEL SOUND – STUDENTS ECHO
   Now that students can read up to the vowel sound, they need practice in adding the final sounds to decode the entire word. This is done by having the teacher say the sound made up to the vowel sound and then having students say the entire word. For example, if the word was “loyal,” the teacher would say “loy” and the students would quickly look at the final “al” in the word and say “loyal.” Even if the first vowel sound is not color-coded (as in the word “action”) the teacher can still say the first vowel sound “ah” to assist with the echo technique. End the ECHO step with the entire class (in unison) saying the list words.

5. BOOBOO CATCHER GAME
   Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY web site or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

7. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
   Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

8. DEFINITION CLUES
   This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

9. COPY CAT EXERCISE
   Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

10. VOCABULARY BUILDING WORKSHEET
    Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

11. STUDENT READING WALL
    Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video

Lesson 17D

1. REVIEW PREVIOUS DAY’S LIST
First, review the previous day’s words to further enhance “long-term” memorization. Next, quickly review the previous 2 or 3 days’ words.

2. TEACH COLORED SOUND AND/OR READING RULE
Teach the color-coded sound or reading rule used in today’s words (short or long vowel sound – r-controlled - common ending – etc). Tell students you want them (in unison) to say the sound of the colored letter(s) but only when your finger touches the paper below the colored sound. Do this with at least 3 or 4 of the words. Hesitate a few times before touching the paper to heighten student interest.

3. STUDENTS STOP AT THE VOWEL SOUND
Students say the sound up to the colored vowel sound as teacher covers the right side of the word with hand. For example, if the word was “loyal,” students would say “loy.” Do this for all list words. In some lists, the first vowel sound is not color-coded (for example, if teaching the sound “ion” in the word “action.” In this situation, you can still practice stopping at the vowel sound, but first discuss the sound with the class. For example, what is the first vowel sound? Long? Short? Diphthong? Other?

4. TEACHER STOPS AT VOWEL SOUND – STUDENTS ECHO
Now that students can read up to the vowel sound, they need practice in adding the final sounds to decode the entire word. This is done by having the teacher say the sound made up to the vowel sound and then having students say the entire word. For example, if the word was “loyal,” the teacher would say “loy” and the students would quickly look at the final “al” in the word and say “loyal.” Even if the first vowel sound is not color-coded (as in the word “action”) the teacher can say “ah” to assist with the echo technique. End the ECHO step with the entire class (in unison) saying the list words.

5. BOOBOO CATCHER GAME
Students put both hands on desk. Teacher says words in order but makes a mistake on saying a word. Students raise their hand upon hearing a mistake and say which word was read incorrectly and what the error was. Go back to the top of the list and repeat the process at least 4-5 times. Since students know a mistake will be made, the teacher is “forcing” them to read the word first (words are read in order). Students love a good challenge and this certainly is one. Note: Add a few second pause before saying difficult words to give all students extra time to remember the word on their own. Also, watch what happens when you say a word loudly and quickly and say it correctly at the same time.

6. STUDENTS READ LIST WORDS – STOPWATCH ACTIVITY
Tell the class that you are going to call on 5 students to say the list words. The first three students will be volunteers – the last two will be called on. (Telling the class that someone will be called on will encourage all students to pay closer attention). After calling on your first volunteer, write their name on the board. Tell them that when they say the first word you will then start the stopwatch and time them on how fast they can say the list words (highly motivational for students). Timing can be done with a stopwatch or assign a reliable student to use the ReadingKEY digital stopwatch on the ReadingKEY website or CD. After timing the first student, write their time (to the tenths of a second) next to their name on the board. Repeat this process with two more students. Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

Next, ask another student whose hand is not raised “IF” they would like to try saying the list words. It is recommended not to “push” any student to say the words unless they truly want to try.

7. TEACH WORD MEANING – DEFINE AND PUT IN SENTENCE
Now that students can read the words, the next step is definition mastery. While definitions are practiced effectively in our Vocabulary Building Worksheet section, it is helpful to familiarize students with word meaning at this time. Begin by ASKING if anyone knows the meaning of the first word - discuss this and have someone put the word into a sentence. Move onto the next word repeating the “define” and “put in sentence” process.

8. DEFINITION CLUES
This powerful activity forces students to read all words silently, thereby giving additional practice. The teacher uses his/her imagination to come up with a “clue” related to the list word. For example, if the word was “landscape,” the teacher could say, “This is what you would see looking at a window.” Synonyms and antonyms can also be used as a clue.

9. COPY CAT EXERCISE
Teacher begins by saying “COPY CAT.” When students hear this phrase they begin repeating every word – sound – etc. said by the teacher. Take a couple minutes to review important sounds – rules – stop at the vowel sound technique - and words. To stop the exercise, use the horizontal finger across the throat symbol.

10. VOCABULARY BUILDING WORKSHEET
Pass out the vocabulary worksheet designed for this Lesson. Review word definitions briefly before beginning activity. Access worksheets from the Quick Links box at the top of the ReadingKEY Index page. Worksheets are uniquely designed to accelerate mastery of word definitions and proper word usage. While students are doing the worksheet, walk around class to test students on saying words to see who could benefit from the next step.

11. STUDENT READING WALL
Students who demonstrate mild to moderate difficulty in reading the daily words will be able to maintain progress if given 5 minutes of additional “one-on-one” tutoring using the Student Reading Wall (also included in this program). Steps are similar to the ones used here, but without the Copy Cat and BooBoo catcher activity. To watch a video of the Classroom Reading Wall and Student Reading Wall go to www.readingkey.com/video
